### **New Traffic Revisions at Intersection of Valley Road & Sunrise Drive**

BAINBRIDGE ISLAND, July 19, 2013 – City of Bainbridge Island crews will install permanent pavement markings at the southwest corner of Valley Road and Sunrise Drive during late July 2013.

The purpose of the new markings is to provide guidance to drivers for parking near the intersection. The markings will prohibit parking in close proximity to the stop sign and encourage vehicle parking closer to the curb and farther away from the fog line. In addition, the markings will improve visibility for pedestrians near the intersection.

To view traffic notifications, please visit the City's website: [www.bainbridgewa.gov](http://www.bainbridgewa.gov). For more information, contact Public Works Engineering (842-2016 or [pwadmin@bainbridgewa.gov](mailto:pwadmin@bainbridgewa.gov)).
